CAREER OBJECTIVE

Motivated M.Sc. Computer Science student with a strong foundation in programming, full-stack web development using the MERN stack, and database management. Seeking a Full-Stack AI SDE Internship at CyberMind Works to apply technical knowledge, enhance software engineering skills, and contribute to the development of scalable and user-friendly applications.

INTERNSHIP EXPERIENCE

Web Development Intern Tiruchirappalli
Codebind Technologies
- Gained practical exposure to web development technologies and web application development.
- Developed an understanding of frontend and backend development concepts.

Java Spring Boot Intern Tiruchirappalli
Greenma Technologies
- Gained practical exposure to Java programming and the Spring Boot framework.
- Developed an understanding of backend application development using Java technologies.

EDUCATIONAL QUALIFICATIONS

Master of Science (M.Sc.) in Computer Science 2025 – Present
St. Joseph's College Tiruchirappalli
Pursuing

Bachelor of Science (B.Sc.) in Computer Science 2025
Seethalakshmi Ramaswami College Tiruchirappalli
CGPA: 8.87

Higher Secondary Education (12th Standard) 2021 – 2022
The Girls Higher Secondary School
78%

Secondary School Education (10th Standard) 2019 – 2020
The Girls Higher Secondary School
77%

Higher Diploma in Computer Applications (HDCA) 2021
Computer Software College
6-Month Diploma

TECHNICAL SKILLS

Programming Languages
C, C++, Java, Python

Backend Development
Node.js, Express.js, PHP, Java Spring Boot

Full-Stack Development
MERN Stack (MongoDB, Express.js, React.js, Node.js)

Core Concepts
Object-Oriented Programming (OOP), Database Management Systems (DBMS), CRUD Operations

Frontend Development
HTML5, CSS3, JavaScript, React.js

Databases
MySQL, MongoDB

Development Tools
Visual Studio Code, GitHub, Eclipse

Other Tools
MS Office

CERTIFICATIONS

Python for Data Science
NPTEL (SWAYAM)

Data Analysis: Concepts and Techniques

ADDITIONAL INFORMATION

- Tamil
- English

ACADEMIC PROJECT

Movie Ticket Booking Application (MERN Stack)
Technologies: MongoDB, Express.js, React.js, Node.js
- Developed a full-stack web application for movie ticket booking using the MERN stack.
- Implemented user authentication to support secure user registration and login.
- Designed an interactive seat selection interface that allows users to choose seats and book movie tickets.
- Integrated React.js frontend components with Node.js and Express.js backend services to support booking functionality.
- Used MongoDB for database management and storage of application data.
- Developed a responsive and user-friendly interface to provide a smooth booking experience across different devices.

Intelligent Fitness Tracking and Nutrition Management System
Technologies: HTML, CSS, JavaScript, PHP, MySQL
- Developed a web-based fitness tracking and nutrition management application to help users monitor their health and fitness activities.
- Implemented user authentication, profile management, workout tracking, and meal management features.
- Integrated BMI calculation, calorie tracking, and fitness goal monitoring to support personalized health management.
- Designed a responsive dashboard to display fitness progress and provide recommendations based on user profiles and fitness goals.
